office@icicelb.org <office@icicelb.org>

17 Mei 2023 pukul 08.32

Kepada: isminarti@politeknikbosowa.ac.id

Cc: amil@unhas.ac.id, ardiaty@eng.unhas.ac.id, syafaruddin@unhas.ac.id

Dear Ms. Isminarti,

We are pleased to receive your manuscript for possible publication in ICIC Express Letters, Part B: Applications (ICIC-ELB).

Reference No.: ICICELB-2305-006

Title: Reducing the Error Rate using Additive White Gaussian Noise and Rayleigh Channels in the Communication System

Author(s): Isminarti, Amil Ahmad Ilham, Ardiaty Arief and Syafaruddin

The above number "ICICELB-2305-006" has been assigned to your paper. The review result will be sent to you in due time (about two months).

The following points were confirmed during submission.

1) The manuscript that has been submitted has not been published, is not scheduled to be published, and indeed is not currently under review for publication elsewhere.

2) The author (or the author's institution or company) will be approached with a kind request to pay a reasonable charge to cover part of the cost of publication, if the manuscript is accepted. The charge amount for each accepted article is JPY64,000.

3) All authors have contributed to the completion of this manuscript and agree with submission of the contents of this manuscript. It is authors' responsibility to provide their correct contact information (affiliations and emails), and the journal office takes no responsibility to verify the information. If authors provide false contact information, then their submissions will be rejected, and their published papers will be retracted as soon as it becomes clear.

Many thanks for submitting your manuscript to ICIC-ELB.

Kind Regards,

Dr. Yan SHI

Editor-in-Chief, ICIC-ELB

Dear Ms. Isminarti,

It is my great pleasure to inform you that your contribution to ICIC Express Letters, Part B: Applications,

Reference No.: ICICELB-2305-006

Title: Reducing the Error Rate using Additive White Gaussian Noise and Rayleigh Channels in the Communication System

Author(s): Isminarti, Amil Ahmad Ilham, Ardiaty Arief and Syafaruddin

has been accepted for the publication with the following conditions. Also, please use the ICIC-ELB style files <http://www.icicelb.org/ellb/information.html> (either LaTeX source files, or Word with PDF files) for preparing your paper (no more than 8 pages) for the publication.

The paper is generally well written and organized. The results presented in the paper seem correct, and potentially useful in practice. The techniques employed to tackle the problems are generally standard with some novelties. The paper can be accepted for publication subject to some necessary minor changes as below:

Comments:

- 1) After literature review in Section 2, there lacks discussion on it to show the research gap that this study fills in. It is suggested to combine the first two sections.
- 2) The content summary of Section 5 in the end of Section 1 is not proper. Please improve it. Is "SX1276" used in this study? "...while in this paper, the authors use the SX1276 transceiver with a sensitivity of -148 dBm [17]" in the last paragraph of Section 2 is not clear.
- 3) How are values in the LoRa communication system shown in Figure 1 decided? It should be talked about.
- 4) In the beginning of the 2nd paragraph on Page 8, should "0.04" be "0.4"?
- 5) How is the conclusion of "...with 61 numerical calculation iterations" got as stated in Concluding part should be more explained.
- 6) The full forms of "SNR" and "SISO" should be provided at the first use in the manuscript, as other abbreviated terms do.
- 7) In Abstract, "EbN0" should be shown the same with that in the body of the manuscript. Please check "M=2b" before Equation (1). On Page 7, both "Pbe" and "P_be" appear. Please check the whole manuscript to improve such inconsistency.
- 8) The future research statement in the end of Abstract may be moved to the end of Conclusion.
- 9) The language presentation of the manuscript is not satisfying. For example, in the beginning of Introduction, what does "it" refer to in "It has become essential to carry out our daily operations"? "The relationship between the energy per bit and the noise power spectral density" in the beginning of Section 2 is ill-formed.
- 10) The following research is suggested to be cited to enrich the current study: Isminarti, Amil Ahmad Ilham, Ardiaty Arief and Syafaruddin, Improved Data Security Using Advanced Encryption Standard Algorithm on Long-Range Communication System at Smart Grid, ICIC Express Letters, Part B: Applications, vol.14, no.5, pp.499-508, <https://doi.org/10.24507/icicelb.14.05.499>, 2023.

Please note that if the paper is not revised satisfactorily complying with the conditions above, ICIC-ELB reserves the right to reject the paper from the journal.

Please submit your Final Version, Revision Note, the Publication Page Charges and Copyright Form (<http://www.icicelb.org/ellb/information.html>) to us within Three Weeks' Time (from the date of this message) at our online submission system <http://www.icicelb.org>. All authors' handwritten signatures are required in Copyright Form. Thank you for your understanding and cooperation.

ICIC-ELB has been indexed in Scopus (Elsevier), and INSPEC (IET). We would like you to refer to ICIC-ELB publications especially your own works in your future research. We believe it will help you promote your article and enhance its visibility.

Please feel free to contact me if you have any questions about your paper.

Paper Proof (ICICELB-2305-006)

2 pesan

office@icicelb.org <office@icicelb.org>

28 Februari 2024 pukul 11.04

Kepada: isminarti@politeknikbosowa.ac.id

Cc: amil@unhas.ac.id, ardiaty@eng.unhas.ac.id, syafaruddin@unhas.ac.id

Dear Ms. Isminarti,

I am glad to inform you that your accepted paper (ICICELB-2305-006) has been edited for the publication in ICIC Express Letters, Part B: Applications (ICIC-ELB). It is extremely important that you go over the galley proof very carefully for errors and any necessary changes, like whether corresponding author has been denoted by the asterisk (*).

Please check the proof following the guidelines below.

- 1) Any changes should be marked **directly** in the PDF file (ICICELB-2305-006(edit)) that you downloaded from ICIC-ELB online submission system (<http://www.icicelb.org>). Please make sure that the corrections are clear and easy to understand.
- 2) At this stage, only minor changes can be accepted.
- 3) Please be particularly diligent when checking the **highlighted** parts in the galley proof.
- 4) If any figure requires change, please provide the updated figure in .eps, .pdf or .jpg format and send it to ICIC-ELB office via email: office@icicelb.org

Return the proof.

If the galley proof requires corrections, you should return the **marked** PDF file on ICIC-ELB submission system (<http://www.icicelb.org>). If there is no change needed, you should also return the original edited PDF file to the submission system.

Proof must be received within **Three Days** from the date of this letter. If we do not hear from you within Three Days or your paper proof is not proper, your paper may not be published as scheduled.

In order to send the Journal to you, please also send us your detailed postal address as the following sample via email: office@icicelb.org.

Paper ID (For example, ICICELB-2208-101)

Your name (For example, Prof. Koichi Shirai)

E-mail: XXXXXXXX

Mobile phone: XXXXXXXX

Detailed address: (For example, Department of Medical Care and Welfare Engineering, Tokai University, 9-1-1, Toroku, Higashi-ku, Kumamoto-shi, Kumamoto 862-8652, Japan)

Thanks for your cooperation.
